## shoberg homes.

This July, *Luxe Interiors + Design* celebrated at a stunning piece of new design, the latest project from Shoberg Homes. Designed by James D. LaRue Architects, the house features work from Land Restoration, Hardwood Designs, Exclusive Windows and Doors of Austin, Portella Iron Doors, Schroeder Carpet and Vervano Furnishings. Over 150 guests were in attendance to enjoy wine from Spicewood Vineyards, specialty cocktails from Dripping Springs Vodka and bites from East Side King. This was truly a beautiful project and we were honored to have been a part of its showcase.
